The anti-ring Republicans are going to cut a much larger figure in Kanawha and Fayette counties than the Republicans think. A poll of the voters in a single precinct in Kanawha county shows that out of a total of 178 voters there are 38 Republicans who state openly that they are going to support the Democratic ticket this year. And it is about the same all through the country. In Fayette almost the same condition exists. The Republicans have practically given up all hope of carrying Kanawha, which gave McKinley a plurality of 2,120 in 1896.

The only chance in the world the Republicans have to carry the State is to buy or steal it. But the Democrats cannot be outwitted in the same way this year that they were four years ago. Already they are at work blocking the games of the Republicans, and if there is any fraud in the election next week it will have to be committed while the Democrats are asleep.

It is known that in some counties the consulted in the matter thought the time limit was too short within which a pre-sentable structure could be erected. Among the various places which are being considered for the ball are the Arlington Hotel,

The lower portion will represent the Capitol building as it appeared 100 years ago with the inscription underneath, "United States Capitol, 1800."
